

ADI RYAN SUJARWO

PROFILE

I am a high school graduate with a strong interest and enthusiasm for learning in the field of Information Technology. I actively develop knowledge and skills in data management, data visualization, and understanding how information systems can help improve business efficiency and effectiveness. I am used to managing time well and am committed to delivering the best performance in every responsibility. I have a strong motivation to pursue a career in IT and am ready to grow together with the company.
